The Karma series was developed specifically for the cut flower market. Karma dahlias have incredibly strong stems and brilliant, iridescent colors. The plants are highly productive with uniform stems and a long flowering period. Blooms are 4-5 inches in diameter and are upright facing. Choose from 24 eye catching colors that will be sure to attract your customer's attention.

Versatile Karma Dahlias can be grown in the field, in cold frames, or in greenhouses. After planting, pinch and leave 3-4 sets of leaves, which will give 4-6 breaks. Dahlia beds should be approximately 3 feet wide with an 18 inch walkway between beds. Stems can be harvested 7-9 weeks after pinch. Always cut just above the node. Stem length can vary from 12 - 20". The stems can be cut when the flowers show color and are halfway (or less) open. Stems must be put in water with a post harvest additive, this treatment delays leaf yellowing in the vase and keeps better flower quality. Cut flowers should be stored at a post-harvest temperature of 40-42 degrees F. Expect 6-8 stems per square foot in the field, 10-13 stems per square foot in cold frames and 12-15 stems per square foot in a heated greenhouse.

Prospero tends to root faster than all other varieties and may come in somewhat root bound, if this occurs, the roots should be loosened before planting to encourage healthy growth.

Thalia has been showing some significant variation of producing both single and double blooms. The color pattern remains stable and the mix of single and double blooms is still very attractive. This being said, we are offering it as available with caution and some risk.

Discounts:	3% Early Order Discount on all prebooked (sown to order) orders placed by Nov 1, 2018. Volume discounts are also available for all orders of 57 trays or more—split trays count as 1/2 tray. Please call us for a quote.
Claims:	Must be reported to Germania Seed Company within 48 hours of receiving plants. Photos are requested to aid in assessing claims when possible. Final losses should be reported by the end of the delivery week. Visible damage must be reported directly to the Grower Truck driver or Fed Ex driver before they leave the location. For Grower Truck claims, have the driver call us before leaving your location. Please take clear photos of any damage to the box and/or plants and include the tray label whenever possible. <u>Zinnia plugs are fragile and do not box well; Kube-Pak will not honor any claims for Zinnias shipped in a box. Customers that utilize the FedEx Signature Release Authorization impair our ability to resolve shipping claims and may limit our liability for any resulting losses.</u>
Cancellations:	Cancellations of items can only be honored without charge if production has not been started.
