SCENTED GERANIUMS

25 STRIP TRAY

Raker

Scented Geraniums are frost-tender, scented foliage Pelargoniums. Grown for their pleasantly scented leaves, they flower from late spring to early summer.

Raker Scented Geraniums are available in 25-strip trays, which means low minimum plant orders quickly increase your customers' volume level. Raker acquires quality cuttings from clean virus-free stock and maintains strict production protocols and environments.

Although perfectly suitable in a 4-inch pot, using the scented varieties with other annuals can create a more interesting, upscale combination

liner age	3 (veg)
tray configuration	17 x 3
tray dimension	21.25" x 5.50"
cell count	51
"solid as" count	51
