Except as stated in this paragraph, all other indemnifications either expressed or provided by common law, are hereby excluded. Seller assumes no indemnity of buyer or any losses of expenses buyer may suffer as a result of a claim made by any third person.

(c) All orders accepted and promises of delivery given are subject to the required materials and transport being available and we will not accept any responsibility for delays arising from any causes beyond our control. Where a shortage of goods results from any reason beyond our control, we shall have the right to apportion our available supply among our customers in such a manner as we deem equitable. (d) Delay default or defect in one or more deliveries shall not affect the balance of this order.
- 5. Loss of or Damage to Goods in Transit:** (a) We shall not be liable for loss or damage alleged to have taken place before delivery unless notification by the customer in writing, giving full details of the alleged loss or damage, is received by us within ten (10) days of the date or (in the case of goods lost) within ten (10) days of the date on which the goods would have been delivered (b) In addition to and not as an alternative to the above, any obvious damage to goods or to their packing must be noted on the carrier's copy of the delivery note or equivalent document at the time of delivery. - 11. Limitation of Remedies:** Neither party shall be liable for special, indirect, incidental or consequential damages. The remedies of the customer set forth in Paragraph 10 are exclusive and the liability of Seller with respect to any contract or sale or anything done in connection therewith, whether in contract, in tort, under any warranty or otherwise shall not except as expressly provided herein exceed the price of the product on which such liability is based.
- 12. Insolvency of Customer:** If the customer becomes bankrupt or insolvent or is unable to meet obligations as they become due during the period after the customer accepts we may forthwith terminate this agreement upon written notice of termination to customer. Any such termination shall not prejudice our rights to any amount then due under this agreement.
- 13. DID YOU KNOW?

Tags can add value to plants by flagging information that appeals to consumers; whether a plant is a pollinator, drought-tolerant, native, makes a donation upon purchase, etc.

Consumers are willing to pay more for products and services that come from companies who are committed to positive social and environmental impact. (Nielsen, 2015)

POLLINATOR IDENTIFYING TAG

Support for the health of pollinators is gaining momentum with gardening and lifestyle consumers. Consumers' awareness of the diminishment of pollinators as an environmental problem is on the rise.

Growers and retailers increasingly are being asked for pollinator-friendly plants.

3.5" Round Tag
shape: OP0350
size: 3.5" x 3.5"

About 75% of all flowering plant species need help from animals to move their heavy pollen grains from plant to plant for fertilization.

An estimated 1/3 of all foods and beverages is delivered by pollinators.

In the U.S., pollination produces nearly \$20 billion worth of products annually.
